

## INPAX School Clientele

INPAX is pleased to present some of the many organizations that have benefited from our training programs.

The University of Pittsburgh	<i>Via the Allegheny Intermediate Unit:</i>
Penn State University	Baldwin-Whitehall School District
Clarion University	Bethel Park School District
Erie School District	Elizabeth forward School District
Blackhawk School District	Fox Chapel Area School District
Ferndale School District	Gateway School District
Big Beaver Falls Area School District	Keystone Oaks School District
Allegheny Valley School District	Moon Area School District
Chartiers Valley School District	Mt. Lebanon School District
North Allegheny School District	North Hills School District
Derry Area School District	Penn Hills School District
Leechburg Area School District	South Allegheny School District
Northstar School District	South Park School District
Faith Christian Academy	Upper St. Clair School District
Northside Urban Pathways School	West Mifflin Area School District
City of Pittsburgh – Westinghouse	Woodland Hills School District
North Catholic High School	<i>ASSERT has also been featured at:</i>
Vincentian Academy	PA Safe Schools Conference
Riverview School District	PA Department of Education
Blairsville - Saltsburg School District	FBI LEEDA National Conference
Conemaugh Township School District	FBI National Academy Associates (upcoming July 2015)
Marion Center School District	

ASSERT has also been provided to hundreds of workplaces across the country, and is one of the nation's leading workplace violence prevention and response training programs.

## ASSERT | In their own words

INPAX is at the forefront of personal security training and education. Based on decades of research, development, and real world application, our programs represent the cutting edge in security training methodologies designed to keep people safe when managing interpersonal confrontation. Here is a sample of the feedback received from educators who have experienced the INPAX Method through our critical incident response curriculum.

*"Sam is extremely adept in the training he and his staff provide to groups and individuals. He engages his audience using all three learning styles: visual, audible, and experiential. The critical incident response workshop Sam provided here reached the entire staff of Chartiers Valley School District. No matter the skill level of his students during the session Sam and his staff members were able to exhibit depth of knowledge, professionalism, and a variety of skill sets that trainees practice to this day so the expiration date for each is not reached."*

Walt Schultz,  
Director of School Security, Chartiers Valley School District

*"All of our teachers are committed to providing quality instruction to the students in their classroom, but that's not all. They are called to protect their students as well. With the violence in our world today, our District is upgrading security measures in our facilities, but if those preventative measures fail, we have to provide our staff with the training and confidence to know what to do if confronted with an armed intruder. INPAX training has helped our staff think through how to respond in a crisis and has given them basic skills to protect themselves, colleagues, and our students. We hope and pray that we never have to use the training we have been provided by INPAX, but our staff has more confidence in knowing what to do when confronted with school violence."*

Dr. Michelle Miller,  
Superintendent, Blackhawk School District

### All comments below are reproduced verbatim from post-training surveys\* by our educator participants.

*"There is nothing you could do to improve the class. I think it was excellent! I feel this is one of the best, most worthwhile trainings we have ever had. Thank you for coming to our school, and I look forward to learning more from you in the future. :)"*

*"This training was the most productive hands-on training that we have had. Loved it, as did all of my staff!"*

*"You did very well with this class. It was not stressful and it brought light to a very difficult situation."*

*"I thought Mr. Rosenberg was very good at presenting the information in language and technique that was easy to understand and remember. I wish my group had both men and women to allow for compensation of size/strength differences. Overall I felt empowered to realize that we have options to help ourselves or innocent victims in hostile situations."*

*"Class is great as it is! I appreciate being even more prepared than I thought I was. I think everyone would benefit from this training. I now have another skill, which gives me more peace of mind. Thank you."*

*"I loved the training and do wish we will have more of it in the future. All teachers/faculty should go through this training, even if it is never used, at least we are all prepared if something were to go wrong in our schools."*

*"I was reluctant to attend, fearing it would provide safety drill information that I often find unrealistic. I was very pleased that I walked away with a realistic approach should a problem arise. I would suspect that should I encounter an armed person it will most likely not occur at school, but at least I am knowledgeable on how to confront the situation. Thank you for keeping it real."*

*"This training was very valuable! I feel so much more empowered to handle a crisis situation, where before I felt helpless. I wish we had more than 2 hours for the training. I also would like to have had time to model some situations in our classrooms. Thank you!"*

*"The training was outstanding and powerful! I now feel more comfortable, confident, and empowered. I love how the presentation was based on research and psychological & physiological factors that come into play when one finds themselves in these unfortunate situations. The strategies are quite logical, but I had not previously viewed them in that perspective. No suggested improvements. I would love to attend another session or have additional time/exposure to practice and discuss these strategies."*

*"I really enjoyed taking the class. Now I feel a little bit more prepared if a situation would occur. I think it would be very beneficial to have a real life drill where we could use the skills that we just learned and become more prepared for that type of situation."*

*"Ask school districts for a minimum of one full training day for such a great program. This was the best and most useful training I've ever had. I hope to see you back at our district again. Thank you."*

*"Great training!! Would have liked more time/multiple days."*
